

S2 ROBOTICS

REDEFINING SUBSEA PIPELINE IRM OPERATIONS

CORPORATE VALUE

Vision

To redefine subsea pipeline inspection, maintenance and repairs with cutting-edge technologies for sustainable hydrocarbon operations.

Mission

At S2 Robotics, our mission is to develop efficient, safe, fast and best-in-class technologies, and provide unparalleled services for subsea pipeline inspection, maintenance and repair that saves time, money, and lives in an environmentally manner.

COMPANY STRUCTURE

100%

AI AND
ROBOTICS
VENTURES

50%

ROVULA

50%

Kongsberg Ferrotech

S2 ROBOTICS

GTM Driver for Advanced technology
for pipeline inspection and repair

CAPABILITY

Diverless subsea pipeline
Inspection, Repair and
Maintenance (IRM) services
Nautilus

CORE PRODUCTS

Nautilus, world's first
subsea IRM robot.

SERVICE

Subsea pipeline inspection,
repair and maintenance
services

STRATEGIC PARTNERS

ZEALQUEST

EUREKA
EFEKTIF

Cost Effective

Save over 30% of your subsea
IRM operating costs with our
advanced AI & Robotics solutions

DNV Certified

Using method certified
by DNV ensuring the quality
of subsea pipeline repair

Faster

Reduce down time by 50% on
subsea IRM operations with
our cutting edge technologies

Safer

Remove the use of
specialized divers with our
Nautilus underwater robots
